The Information Technology Department provides Wi-Fi guest accounts to visitors who are coming for a short period of time and would like to have access to the Internet. These accounts will only give you access to the campus wireless network, not to the campus computers. Visitors who would like access to the Wi-Fi will need to do the following:

- Come personally to room N323
- Show Photo ID
- Provide the following information:
  - Name
  - Address
  - Phone Number
  - Email Address
  - Company

We will provide an account for you that will be good for that day. Other account durations are available upon request.
