GCC’s final commencement before move downtown

GCC’s 20th commencement on May 24 marked a new beginning for the more than 700 graduates and for the college itself, as it was the final graduation ceremony before the college moves to its new downtown campus.

“Eight years ago, I announced to the Class of 2004 that our vision for a new campus was to become a reality,” said GCC President Dr. Dorsey L. Kendrick. “In a few short months, we’ll welcome students to that campus, which has risen in steel, concrete and glass to anchor New Haven’s downtown skyline. As exciting as that is, it’s not our final destination. Rather, it’s the next leg of our journey to help today’s, and tomorrow’s, students.”

State Comptroller Kevin Lembo gave the keynote address at the ceremony, which was held at Woolsey Hall at Yale University.

“This day is the culmination of a great educational achievement for Gateway graduates — but my message today is that graduation marks only the beginning of an educational and intellectual journey,” Lembo said. “These graduates, and all of us, must continue to create, contribute and engage in our communities. And I’m certain that Gateway has provided the perfect foundation to inspire that.”

College spends its final weeks on existing campuses

Faculty and staff throughout the GCC community are spending their final weeks on our two existing campuses preparing for the move downtown, which will begin July 6 and take place on a staggered schedule over two weeks.

The move is being managed by East Hartford-based owner’s representative Diversified Project Management (DPM), which is also handling our furniture procurement and installation. The new campus will welcome students for the fall semester on Sept. 4.

GCC wins ‘Best of New Haven’ readers’ poll award

To submit articles to President’s Corner, contact Alison Skratt at askratt@gwcc.commnet.edu.

For a printer-friendly version, click here, scroll down to “Announcements” and click on “President’s Corner Newsletter.”
GCC was honored last month in the Best of New Haven Readers’ Poll 2012 as the best Local/Technical/Business/Art School. Our congratulations go to the departments and programs involved, as well as the faculty and staff for this well-earned recognition.

GCC’s Middle College graduates its first class

The first graduates of GCC’s Middle College Initiative — which gives at-risk/moderately at-risk high school students at three New Haven high schools the opportunity to earn up to 30 college credits while attending high school — participated in a commencement event on June 4.

In all, 25 students graduated. Twenty-four of them are going on to college next year and one is going into the U.S. Army. These first graduates have been accepted at and/or will attend the following colleges: Marymount, Smith College, University of Bridgeport, University of New Haven, Central Connecticut State University and GCC. Those going to school with which GCC has articulation agreements will begin as sophomores.

Among the success stories: Solomon Green, who nearly lost a brother to the streets; and Sawda Salami, who left her mother and friends behind in her native Africa to become an accomplished young woman with a bright future. In photo, courtesy of the New Haven Independent, graduate Mary Inge, 17, who is set to attend Smith, prepares to perform at the event. To read the New Haven Independent article about the graduation, click here.

Center for a Sustainable Future’s fall course schedule

GCC’s Center for a Sustainable Future (CSF) will offer more than a dozen courses this fall, including a variety of solar-related courses, as well as courses on geothermal energy systems, sustainable business development and managing a sustainable business.

The classes start in September, October, November and December. They include:

- Solar Thermal Systems;
- Solar Fundamentals and Site Surveys;
- Solar Photovoltaic: Entry-Level;
- Solar Photovoltaic for Your Home or Business;
- Solar Heating (Thermal) for your Home or Business;
- Sales Presentations: Making the Case of Solar Photovoltaic Technical Purchases;
- Geothermal Energy Systems Introduction; and,
- Sustainable Business Development Topics.

GCC’s CSF offers education and training programs to prepare the “green” workforce of the future. It is committed to playing an integral role in the sustainable economic development of Connecticut, facilitating the transition to renewable energy resources,
sustainable building development, energy efficiency programs, alternative transportation technologies and other sustainable initiatives.

‘Shape Up’ competitors lose 111.5 pounds of fat

The 55 participants in GCC’s 10-week “Shape Up to Ship Out” wellness competition lost a total of 111.5 pounds of fat, gained 67.7 pounds of muscle and lost a total of 63 inches from their waists and hips.

In the individual competition: Michael Buccilli won first place; Dominique Doris won second place; and Allen Gales won third place. In the team competition, the White Team won with 3,691.6 points to the Blue Team’s 3,489.4 points.

“Everyone did an outstanding job and should be proud of their results,” said Exercise Science and Wellness Program Coordinator Todd Degree. “We want to thank everyone for their participation.”

The “Shape Up to Ship Out” program was designed to promote health and wellness in the weeks leading up to our move downtown while simultaneously giving the Exercise Science and Wellness internship class the experience of implementing a wellness program. Each participant was assigned to either the White Team or the Blue Team and were measured and weighed before and after the competition.

Teens fund 3 new GCC scholarships for 2012-13

Two best friends entering their senior year at Hamden Hall Country Day School have donated $1,500 — raised when they asked friends to make donations instead of bring gifts to their combined Sweet 16 Mardi Gras birthday party (photo) — to fund three scholarships through the Gateway Community College Foundation.

Allie Rhian and Sofia Aschettino, both of Orange, directed the original party donations to Continuing Education for All (CEFA), a non-profit organization Rhian founded in 2010 where Aschettino serves as secretary/treasurer. CEFA then donated the funds to the foundation, which used them to create three $500 scholarships that new or returning GCC students can use for tuition, books, supplies or living expenses for the 2012-13 academic year.

“We know how fortunate we are,” Aschettino said. “We want to share our opportunities with others who want to continue their education, but can’t afford to go to college.” The girls were particularly interested in channeling the money they raised to a community college, since, as Rhian explains, “that’s where people who truly want to learn go to school.”

The foundation helped the pair decide on scholarship criteria, including having applicants provide examples of how they have worked hard and persevered to overcome difficulties and challenges. Both Rhian and Aschettino have been invited to serve on the foundation’s Scholarship Committee, where they’ll have the opportunity to review applications and select the three CEFA scholarship recipients.
“Our scholarship sponsors truly understand the importance of their financial support to the students that benefit,” said Foundation Board Chair Lindy Lee Gold. “Like these remarkable young women, they, too, believe passionately that their actions today have significance to the futures of those whose lives they touch.”

**LEEDing the Way: Green education, housekeeping**

As part of its role as a “green” innovator among Connecticut state colleges, GCC will promote a “green” education program upon moving into our new downtown campus, using signage and tours to inform and educate the public about the many Leadership in Energy and Environmental Design (LEED) features of the campus.

The campus will also feature “green” housekeeping, a program designed to reduce the exposure of the college community and maintenance staff to potentially hazardous chemical contaminants that may adversely impact air quality, individuals’ health and the environment. The program will involve the use of substitute chemicals and the selection of cleaning processes that improve the health of a building.

*This is the final installment of our “LEEDing the Way” feature, which spotlighted the Leadership in Energy and Environmental Design (LEED) aspects of our new campus. The LEED Green Building Rating System™ is a voluntary, consensus-based standard to support and certify successful green building design, construction and operations.*

**Faculty, Staff Highlights**

**Faculty and Staff Appreciation Awards for 2012**

GCC’s Faculty and Staff Appreciation Awards were given out May 17 during the 2012 Awards Convocation in the auditorium of our North Haven campus.

GCC Humanities Professor Russell Gaudio (left in photo), chair of the Department of College Advancement Studies (CAS), received the 10th annual Faculty Appreciation Award. And the sixth annual Staff Appreciation Award was given to Janet Klinck (right in photo), secretary in the Office of College Life.

In his remarks about Gaudio at the May 17 event, Dean of Academic Affairs Dr. Mark Kosinski said Gaudio quickly gave CAS, the department that addresses the academic needs of students who struggle with basic math and English concepts, “a new coherence, focus, a new sense of mission” when he took it over in 2007.
“Here is how his colleagues describe him: ‘I watch him give so much above and beyond to each student from all areas of the college,’ ‘His is always innovative in his teaching, always available for workshops or seminars,’ ‘Students, staff and other faculty consistently seek his knowledge in the area of student advising,’” Kosinski said. “Here is what distinguishes Russ — he’s an educator through and through. Meet him on any given day and he’ll share a story about a student, tell you what Melville story he still re-reads, bring up a colleague’s good work and share a professional development project.”

In her nomination letter for Klinck, her supervisor Roberta Prior described her as “an unbelievable asset to Gateway” “She demonstrates a superior work ethic and positive attitude toward all,” Prior wrote. “She is key in problem-solving and finding solutions to office and campus issues. Many colleagues look to her for guidance and assistance knowing that she maintains the highest level of confidentiality. I look to Janet for not only support and assistance, but as a key member of my team and view her more as an assistant or associate director than a secretary. The Office of College Life and the entire activities program would suffer greatly without her superior skills, genuine kindness, honesty and care for our students.”

Dean honored with Lifetime Achievement Award

GCC’s Dean of Students Dr. Wilson Luna was honored June 8 at the annual conference of the Connecticut Association of Latinos in Higher Education (CALAHE) with the organization’s Lifetime Achievement Award.

The highest award given by CALAHE, the Lifetime Achievement Award was given the honor in recognition of his years of dedicated service to CALAHE and his work helping students achieve their dreams of higher education. CALAHE’s mission is to promote and advocate full access, retention and participation of Latinos and Latinas throughout Connecticut higher education.

In the photo at the event at Central Connecticut State University, from left to right, are: University of Connecticut Professor Dr. Xae Reyes; Dr. Wilson Luna; UConn Assistant Provost Dr. Maria D. Martinez; and CALAHE President Myrna Garcia-Brown.

In August, Chenard will become ESL coordinator

Starting in August, GCC Professor Susan Chenard will assume the role of program coordinator for GCC’s English as a Second Language (ESL) Program, succeeding many years of productive work by Professor Carol Brutza in the position.

“Please join me in congratulating these two outstanding faculty members,” said Dr. Mark Kosinski, GCC’s dean of academic affairs. “President Kendrick and I are very grateful to Carol Brutza for her many years of leadership in this position. Carol has worked to provide quality programs and services to all ESL learners at Gateway. The president and I are joined by colleagues in the Humanities Department and across campus in recognizing Carol’s excellent work.”
Associate director of admissions earns her master’s

 GCC’s Associate Director of Admissions Elizabeth Vega last month earned a master’s of science degree in counseling with a concentration in college student personnel from the University of Bridgeport.

Vega took classes both part time and full time with a one-year leave. It took her five years to complete. “This was made possible through the support of my family, my Admissions family, as well as a few special individuals at Gateway,” Vega said. “I would like to send special thanks to: Luis Melendez for mentoring and encouraging me to continue my studies; to Maribel Lopez and Carol Pompano for editing my papers; to Kim Shea for being so understanding; and especially to Dr. Kendrick for giving me the opportunity to prove myself in doing my job while completing my degree.”

Lt. governor visits with The Sages senior group

Lieutenant Governor Nancy Wyman (photo) met with members of The Sages, the senior citizens’ group at GCC, during a visit to our Long Wharf campus on May 18 organized by GCC Professor Dr. Kerin Lee.

Prior to her election as Lt. governor, Wyman served as state comptroller and state representative from the 53rd District. She was House chairperson of the Education Committee and chairperson of the Appropriations Subcommittee on Elementary and Secondary Education. While a legislator, she was noted for her work in the area of public education and name “Legislator of the Year” by the Connecticut Education Association.

Tribute to Douskey’s work held May 24 in Hamden

The Hamden Arts Commission along with the owner of two Hamden musical venues presented a tribute to GCC Professor and Pulitzer-nominated poet Franz Douskey on May 24.

The event, “West of Ordinary: A Celebration of Pulitzer-Nominated Poet Franz Douskey,” included an informal reception with live jazz followed by Douskey reading selections from his many works. Douskey’s “West of Midnight: New and Selected Poems” was nominated by two publisher this year for a Pulitzer Prize. The autobiographical books, released in 2011, places new works alongside pieces previously published in Rolling Stone, the Nation, The New York Quarterly, The New Yorker and Las Vegas Life.
Instructor ‘You’ve Got Talent’ judge in Norwalk

Paula Lin, the GCC instructor who helped launch the college’s voice-over course offerings last year, was one of the judges June 8 for the “So You Think You’ve Got Talent” contest held in Norwalk where the top prize was $5,000.

Lin began her career as an anchor/reporter for major-market radio stations in the Connecticut/New York area and moved on to work at CNN in Atlanta before moving into the voice-over marketplace. Lin has since put her vocal skills to work in television commercials, voicemail systems and online projects.

Student Highlights

Former SGA president ‘Best All-Around Student’

GCC President Dr. Dorsey L. Kendrick surprised former GCC Student Government Association President Samantha Heltke during our 2012 commencement with the college’s Best All-Around Student Award.

Heltke, 23, a West Haven resident, received an associate degree in human services. Previously, she earned a GCC general studies associate degree. She plans on transferring to a four-year university to earn a bachelor’s degree and ultimately hopes to become a social worker who works with children.

Heltke served in a variety of roles outside the classroom during her time at GCC. In addition to SGA president, she was also president of E-Concerns, a member of the Code of Conduct Committee, vice chair of the Campus Activities Board, a New Student Orientation Leader, a member of the two-year college honor society Phi Theta Kappa and an employee in the Office of College Life. She also volunteers in the community at an agency that matches pets with special needs children and with GCC in outreach activities for organizations like Habitat for Humanity, the Ronald McDonald House and local soup kitchens.

Roberta Prior, GCC’s director of student leadership programs and activities, nominated Heltke for the award. “I have seen her grow academically, as a student leader and as a sincere advocate for students,” Prior wrote. “She continues to seek opportunities to strengthen her own personal and leadership skills while still giving to the college wholeheartedly.”

Class of ’12 Profile: Mother, daughter graduate

Madison residents Maria Serrano and Mary Perez not only graduated together May 24 as mother and daughter, but they also both fulfilled dreams to pursue medical careers that began when their husband and father took ill.
Serrano, 46, a former secretary, came back to school to get her degree when her husband became ill. She graduated with an associate degree in business office technology with a specialty in medical administration. She hopes to find work as a medical administrative assistant in the short term, and then continue on to a bachelor’s degree and perhaps a master’s degree.

Perez, 21, was inspired by the nurses at Yale-New Haven Hospital (YNHH) and Gaylord Hospital who not only helped her father during his illness, but also helped her family. Perez graduated with an associate degree in nursing and has already been hired as a nurse at YNHH on the medical floor. Eventually, she hopes to continue her studies toward a master’s degree to become a nurse anesthetist.

“I have watched them both work very hard to make their dreams come true,” said Stephen Buckley, a nursing student who knows both of them. “I have been touched and impressed as I have watched them support each other to make this happen. Together, they represent Gateway’s charter perfectly.”

Class of ’12 Profile: Father, son graduate together

About three years ago, Milford resident Gary Crolla, a retiree from the Milford Fire Department and a Vietnam veteran, decided to take advantage of veteran benefits to go back to school and signed up for classes at GCC.

His son, James Crolla, also a Milford resident, had just finished serving in the military in Iraq and Afghanistan. “He thought he was going to have a well-deserved vacation,” said Gary Crolla, 60. “Little did he know, I signed him up for all the same classes at Gateway, too.”

Both of them graduated May 24 with associate degrees in liberal arts and sciences. Gary Crolla said he plans to continue his education and hopes to eventually earn a master’s degree and teach history. James Crolla, 31, hopes to eventually earn a master’s degree in computer engineering.

“As first, being in class with me was pretty painful for him,” Gary Crolla said. “He was miserable. He hated it. But in the end, it was great for both of us. It was a wonderful journey and I’ll cherish every moment.”

Class of ’12 Profile: Vietnam native achieves dream

In 2009, Minh Tra was living in his native Vietnam when he began to feel his dream of studying business in the United States start to crumble. He had just received his
second rejection letter for a visa from the U.S. embassy and his father, having invested significant funds to garner those two interviews, said he wasn’t going to pay for another.

“Though my father was the one who had encouraged me to study abroad at the beginning, at this point, his disappointment was enough for him to withdraw his financial support,” said Tra (far left in photo).

Rather than give up, Tra, now 22, decided to use all of his own savings, money it had taken him two years to save, for a third interview. This time was different. “The interviewer asked me: ‘You’ve been rejected two times. Why do you keep trying to apply?’” he said. “I told her, ‘This has been my goal for years and I cannot give up on it. I will try until I get it.’ She said, ‘I believe in you,’ and she smiled when she put a seal on my papers.”

On May 24, Tra achieved another one of his goals: he graduated from GCC with an associate degree in business administration. He has been accepted at Drexel University in Philadelphia to continue his studies and hopes to some day run his own business.

Class of ’12 Profile: 1st solar SOAR graduates

The first three students to complete GCC’s new SOAR Solar Technology Program, which prepares students for entry-level employment in the growing “green” field of solar technology, graduated on May 24.

The three graduates were: Robert McGonigle, Boone Synakron and Robert Toussant.

McGonigle worked for 22 years for a commercial printing company before enrolling in the program because he could see that the printing industry was changing and decided to switch to a career like solar that was growing. He has accepted employment with American Solar and Alternative Power.

Synakron has run his own company for the past two years. Better Building Performance does energy audits and insulation work. He enrolled in the program because he sees the need to help people “understand the importance of conserving energy and the role that our carbon footprint and global warming play in our everyday lives.” Synakron plans to go on to earn national certification in solar technology to open even more career opportunities.

12 students inducted into Tau Alpha Pi for 2012

Twelve GCC students were inducted April 27 into the Connecticut Delta Chapter of Tau Alpha Pi National Honor Society, the national honor society for engineering technology.

The students inducted were: George Beckwith, David Garcia, John Kier, John Pavia, Domenic
Perito, Frederick Rosen, Tracy Savage, Scott Sivek, Charles Snyder Jr., Abdou Tchagouni, Mouroussalou Tchaniley and Jeffrey Wilson.

The Tau Alpha Pi National Honor Society is devoted to recognizing high standards of scholarship among students in two-year and four-year engineering technology programs throughout the country. Membership in this society is offered to students who have obtained academic excellence within their engineering technology programs.

Officers for 2011-12 are: President Clayton Smith, Vice President Yapi Adouko, Secretary Joshua Stratoudakis and Treasurer Lona Dansofo. The chapter's advisors are Professor Don Lostritto and Professor Cyprian Ukah.

In the photo, front row left to right, are: Joshua Stratoudakis, Clayton Smith, Lona Dansofo and Yapi Adouko. Second row: Cyprian Ukah (advisor), Abdou Tchagouni, Scott Sivek, David Garcia, Domenic Perito, and Charles Snyder Jr. Back row: Mouroussalou Tchaniley, Frederick Rosen, George Beckwith, John Kier, Jeffrey Wilson, Don Lostritto (advisor) and Paul Silberquit (division director).

Nursing Division hosts 10th anniversary alumni picnic

More than 100 people attended the 10th anniversary reunion picnic for alumni of GCC's Nursing Division, held on the front lawn of our North Haven campus under sunny skies on May 18.

The event, which gave alumni an opportunity to socialize with old friends and honored a decade of excellence in nursing education, was sponsored by Anthem Blue Cross and Blue Shield in Connecticut and Yale-New Haven Hospital.

It included music and a barbecue lunch catered by Frankie's Hot Dogs in Waterbury and group photos of the classes that attended. Members from every graduating class — from 2004 to 2012 — attended, as well as current students. In photo, those who attended from the Class of 2009. Speakers included GCC President Dr. Dorsey L. Kendrick, Nursing Division Director Sheila Solernou, and John McKenna, chief of staff at Anthem.

Grant sends student to NAUW conference

GCC student Nellyanne Ramos, a student worker in the Counseling Office, received a grant to attend a National Association of University Women’s conference in May.

Student: President’s Environmental Youth Award

GCC student Natalie Reyes was one of a handful of alumni of Common Ground High School in New Haven to receive certificates of recognition June 1 from the President’s Environmental Youth Award for their work on 'Leading Green,' a student-led effort to
make Common Ground the nation’s greenest high school.

Reyes, who received the certificate from Sen. Richard Blumenthal and officials from the Environmental Protection Agency, said she learned the importance of keeping the environment clean as a young girl, but gained the tools to do something about it while at Common Ground. To read the New Haven Register article about the awards ceremony, and see a video interview of Reyes, click here.

End of the Year Events

2012 Convocation: Academic Achievement Honors

GCC conferred its 2012 Academic Achievement Awards during its Awards Convocation event on May 17 in our North Haven campus auditorium. This year more than 40 students received Academic Achievement Awards from more than 25 disciplines at GCC.

The event was moderated by Dean of Academic Affairs Dr. Mark Kosinski, while President Dorsey L. Kendrick gave the welcoming remarks. The recipients were:

**Allied Health**
- Nuclear Medicine Technology: Ann Venice
- Dietetic Technology: Paula Henn
- Dietetic Technology/Clinical Excellence: Jerome Lockwood, Shannon Sabas
- Radiopharmacy: Ann Venice

**Automotive**
- General Automotive Certificate: Sean Fenton
- Alternative Energy Transportation Certificate: Allan Perez

**Business**
- Business Administration: Vanessa Hall
- Business Administration-Accounting: Marylin Vega

**Business Office Technology Degree:**
- Connie Sinz

**Business Office Technology Certificate:**
- Tatsiana Adamik

**Computer Science:**
- Urfi Agoli
- Computer Science-Networking: Neil Armstrong, Frank Nerkowski

**Drug & Alcohol Recovery Counselor:**
- Elizabeth Wilson

**DAR* 251/252-DARC Internships:**
- Alan Rousseau

**Early Childhood Education-Career:**
- Gris Gutierrez

**Early Childhood Education-Transfer:**
- Annette Herbert

**Engineering Technologies**
- Biomedical Engineering Technology: Frederick Rosen
- Computer Engineering Technology Degree: John Kier
- Computer Servicing Certificate: Dale Cates
- General Engineering Technology Degree: Damion Thompson
- Electrical Engineering Technology: Harold Becker
- Electronics Technician Certificate: Yapi Adouka
Foundation awards scholarships to 96 students

The Gateway Community College Foundation honored the recipients of its 2012 scholarships at a June 7 luncheon and at GCC’s Awards Convocation on May 17. In all, 96 GCC students received more than 100 foundation scholarships valued at more than $100,000.

This year’s scholarship recipients were: Alimata A. Afolabi, Richard Allspaugh, Michele Barker, Tanisha L. Batiste, Deborah M. Battista, Cynthia L. Bergman, Amanda Bonilla, Thomas P. Burwell, Stacy Ann Brown, Suleman S. Butt, Andrea Cariglio, Barbara Cairone, Stephen Carmichael, Nichole Carter, Tracy Carter, Christina Caruso, John B. Chiari, Frank A. Cinque, Genevieve Coburn, Jennifer Cusack, Carissa M. DeLeone, Stephen DeMonico, Tulani A. Dial, Shaila Diaz, Ashley J. Dufreny, Michelle Fabiani, Mario R. Fasano Sr., Derek Faulkner, Ashley Ferraro, Kelliann Festa, Bernice E. Fleming, Christopher Fontaine, Michele Fonteyn, Kathleen Genera, Tammy Ann George, Tiffany L. German, Cindy Godfrey, Benjamin Greenberg, Joane Halaweh, Vanessa Hall, James H. Hanton, Danielle N. Harris, Brittany Hayes, Capree D. Irvin, Dennisha Jackson, Olivia Jardine, Fabienne F. Jean Paul, Sukanya Kornkaew,
Nursing, Allied Health hold pinning ceremonies

GCC’s nursing and allied health programs held their pinning ceremonies May 15 and May 22, respectively, to mark the transition from student to professional for the programs’ graduates. Both events were held in the auditorium at GCC’s North Haven campus.

The graduates of GCC’s nursing Class of 2012 each earned an associate degree in nursing: Amy Barbosa, Shila Bhandari-Evans, Micheline Burns, Shannon Butler, Gino Caliendo, Kristie Cannon, Fedora Changoo, Karen Clancy, Todd Clark, Samantha Cordone, Maddalena Crocco, Lisa Daniels, Eric Ensling, Shari Freda, Brenda Garcia, Amanda Gay, Matthew Golding, Jessica Hackett, Pamela Hay, Synethia Holly, Matt Kokoska, Dru Konesky, Lynda Lounsbury, Jannine Lowe, Sylvia Malcolm, Chris Marzullo, Theresa McIntosh, Donna McKusick, Brooke Menna, Kelly Merly, Amanda Moore, Melissa Olabisi, Ana Padua, Aleksandr Pasechnik, Nicole Passaro, Andrea Pawlowicz, Mary Perez, Derek Pozzessere, Francesca Recchia, Dedeh Scott, Susan Swonson-Liso, Giovanna Velazquez, Nanci Wallenta, Rachel Wearne, Kathleen Yesucevitz and Marsaynii Zor.

The graduates of GCC’s allied health Class of 2012 earned associate of science degrees and Health Career Pathways certificates:

Diagnostic Medical Sonography: Belinda Borrelli, Jennifer Davidge, Christin DeFelice, Amanda Greenlaw, Roberta Griffiths, Ellen U. Hurlburt, Frances K. Johnson, Mayra Johnson, Leah Velardi, Courtney Warner;

Dietetic Technology: Rachel Devoe, Marie Noelle Dinsart, Debra Gilbert-Taylor, Drew Goldstein, Paula Henn, Jerome Lockwood, Caitlin Molloy, Shannon Sabas, Rachel Williams;

Exercise Science and Wellness: Michael P. Dontfraid Jr., Cochi Shavit;

Nuclear Medicine Technology: Craig Richard Brzozowski, Janet Marie DeMatteo, Ann Teresa Venice, Nicole Rae Wilson;

Radiography: Tracy Blankenhorn, Staci
